
The all-new V-Class Extra LWB.

WELCOME TO THE PRIVATE SUITE

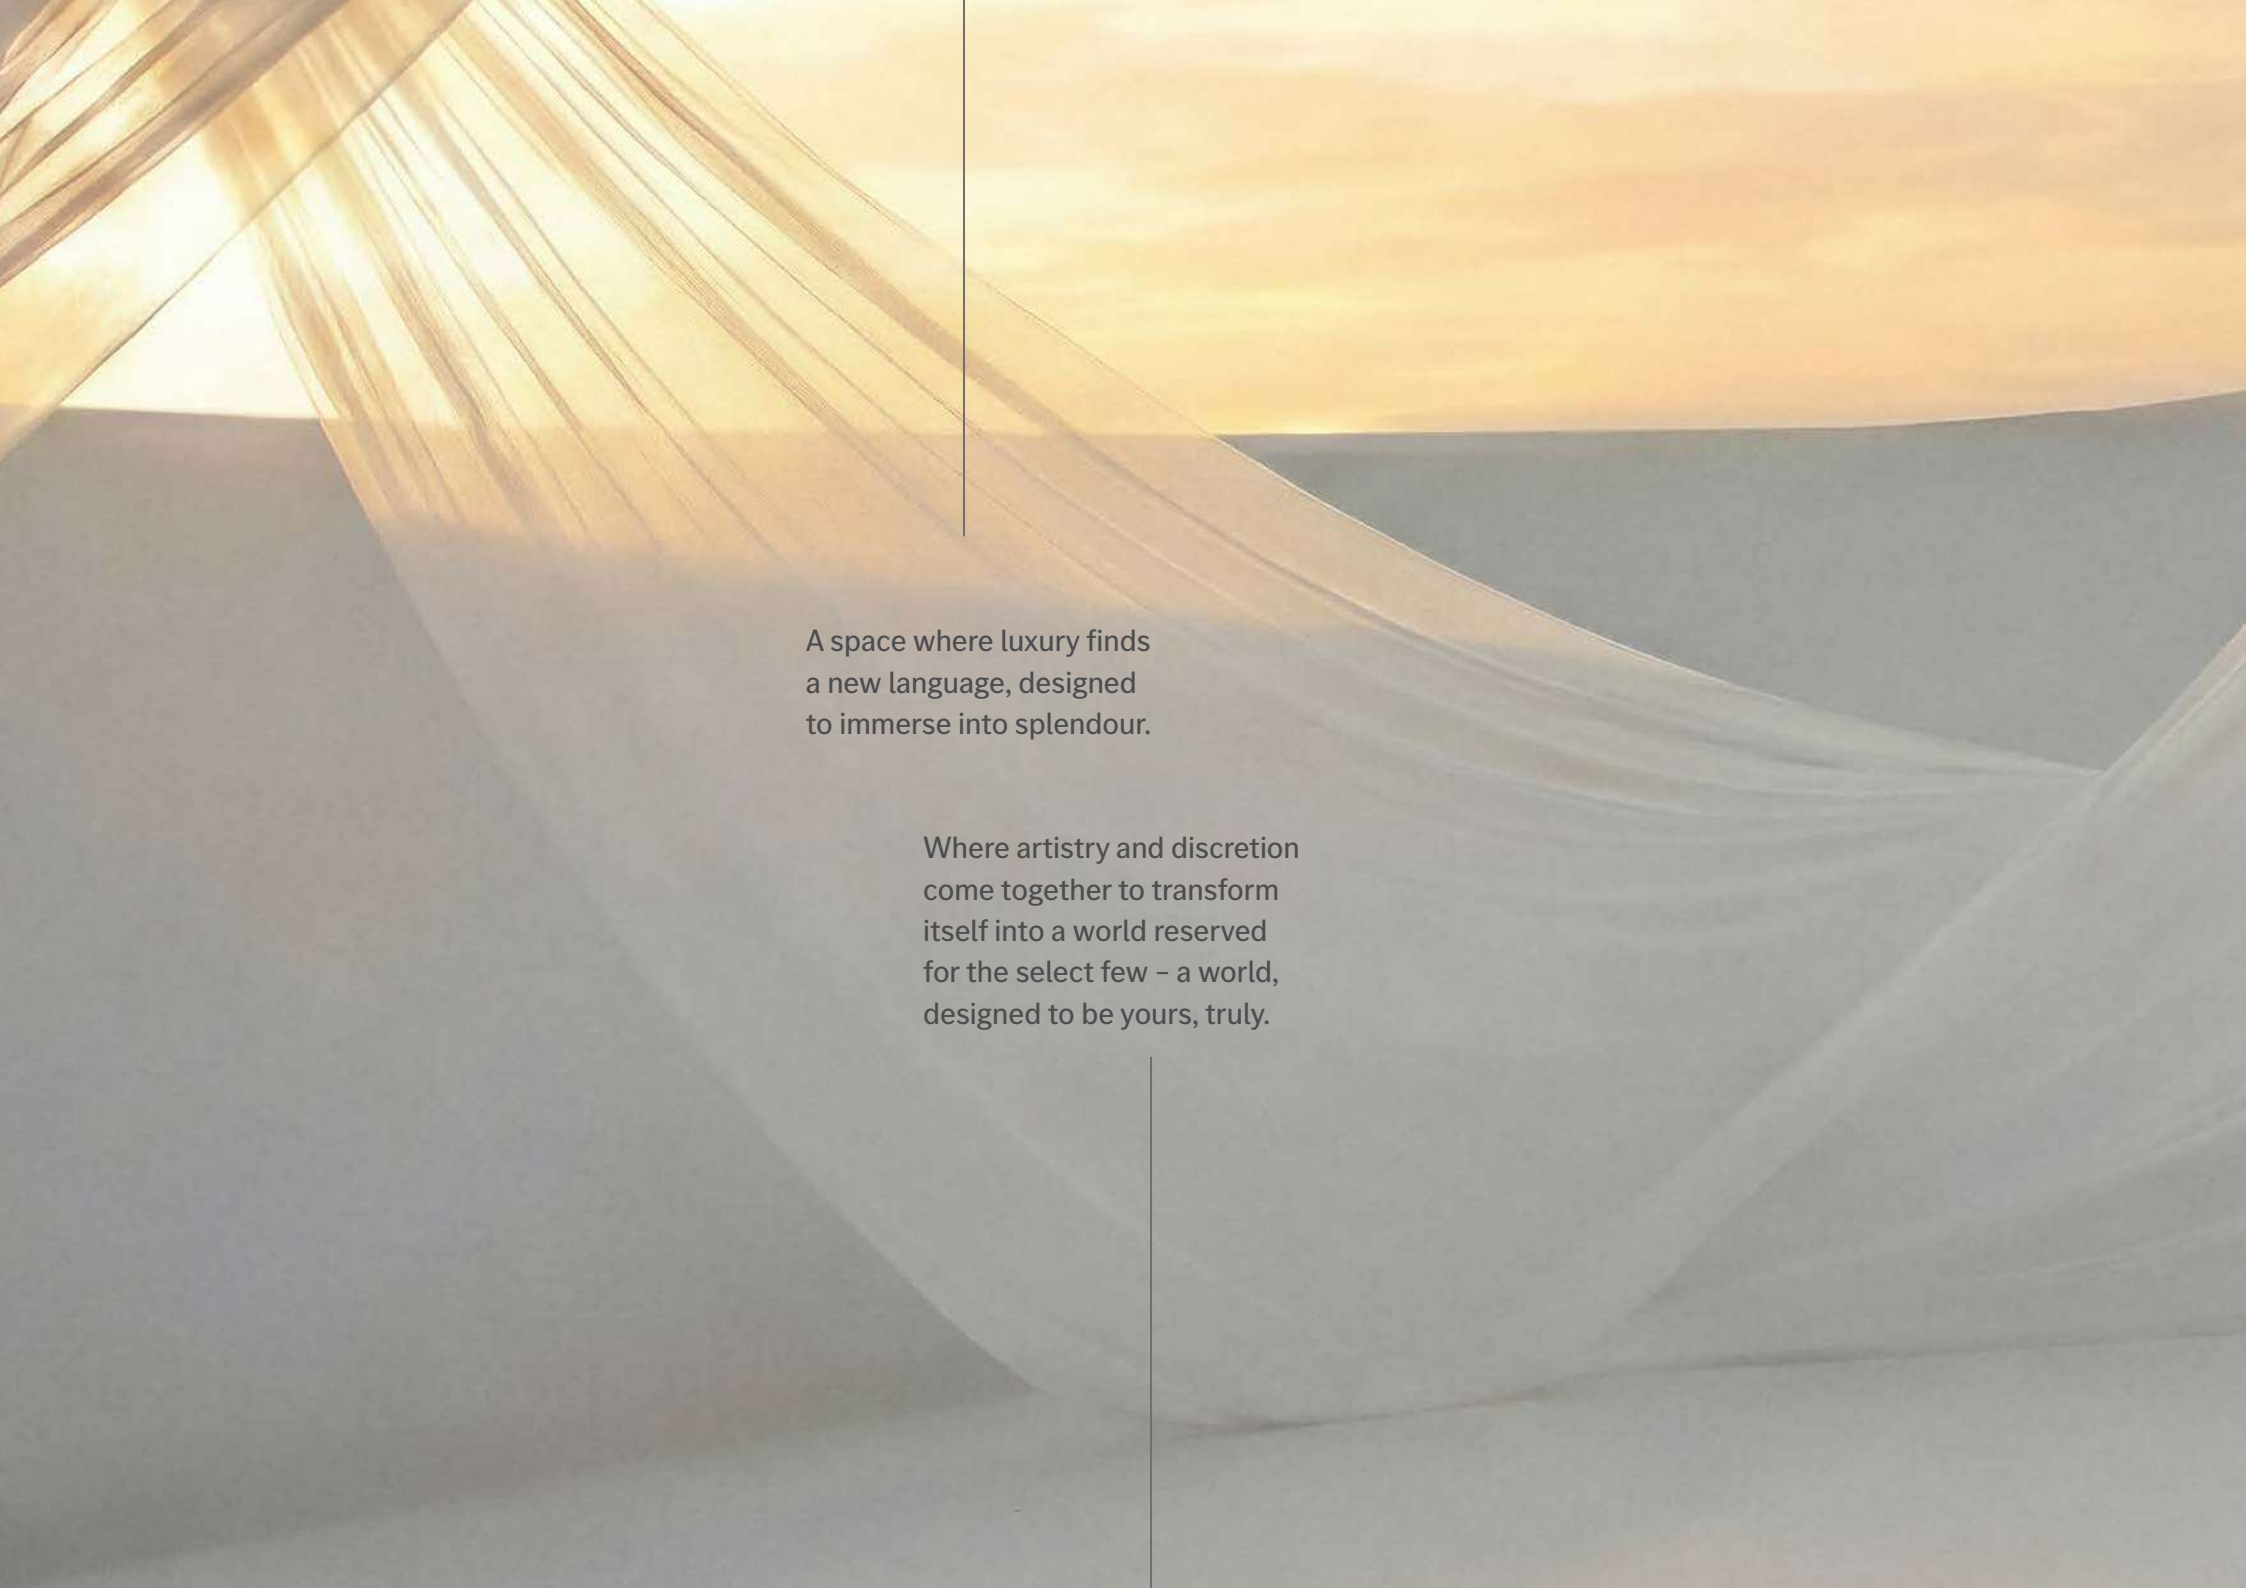

Welcome to the private suite

Step into a world that answers to you.
An inner sanctum that transcends
the material.

Here, time yields to your command.
Sophistication reigns, as the architect
of your desires.

The road beyond bows in reverence,
and space, transforms into the sublime.

Enter a world, designed to
host the exquisite.

A space where luxury finds
a new language, designed
to immerse into splendour.

Where artistry and discretion
come together to transform
itself into a world reserved
for the select few – a world,
designed to be yours, truly.

A couture of comfort

Clad in silk-beige lugano leather,
the seats shape your private suite
with composed elegance

Subtle alpaca-grey stitching traces
the cabin, a mark of fine craftsmanship.

Attuned to your senses

With the Energizing Comfort Package, eleven intuitive programmes orchestrate comfort in perfect balance.

It seamlessly harmonises climate, ambient lighting, sound and seat functions to create a tailored atmosphere for your every journey.

Across the second and third rows, comfort is curated without compromise. Multicontour seats with ventilation and adjustable calf support in the second row offer tailored relaxation.
The ventilated third-row seats extend the same refreshing composure, ensuring every passenger experiences the calm of the private suite.

A cocoon of calm

Encased in heat-insulating glass all-round, your private suite remains a place of calm - cool, composed and beautifully lit. Green-tinted glass with sunblinds across every window enhances the sense of privacy while lending your suite its refined visual signature.

A private orchestra

A 640 W Burmester®
surround sound Dolby Atmos®
15 speakers surrounds every
seat of your suite with
immersive, high-end sound.
Integrated voice amplification
ensures clarity across the
cabin, while signature
speaker detailing signals
acoustic excellence.

Sound, engineered for
your private retreat.

Your digital concierge

Your private suite recognises you. Smartphone Integration brings Apple CarPlay® and Android Auto® onto the media display, placing navigation, music, messages and calls in a clear, driving-optimised view. Control is effortless, by touch or voice, so everything you need is exactly where you expect it.

Between the rear luxury seats, the storage compartment discreetly doubles as an inductive charging surface. Simply place a compatible smartphone inside and let it recharge wirelessly, without cables or clutter, with power restored quietly in the as you remain immersed in calm and comfort.

Courtesies of the cabin

Integrated in luxury rear seat armrest, the deployable cup holders offer a tidy, secure place for drinks, then lift away for cleaning or storage.

Thoughtful in detail, they keep your cabin uncluttered and your journey uninterrupted.

A spectrum of serenity

Light becomes an atmosphere, shaped to your mood.

With a palette of 64 colours and 10 themes, ambient lighting flows seamlessly from the cockpit through to the rear, tracing contours, trim, and footwells with a soft, enveloping glow.

Static or dynamic light scenes, multiple dimming zones, and finely adjustable brightness allow the cabin to shift effortlessly.

From a calming retreat to a vibrant, expressive space, every illumination is thoughtfully orchestrated to elevate your private suite.

The language of touch

A gentle touch is all it takes.

The ergonomically positioned touchpad allows you to navigate vehicle key functions intuitively, seamlessly complementing voice control and the central controller.

Subtle haptic feedback confirms every input, so control feels precise yet unobtrusive.

The art of intuition

MBUX Multimedia System High brings intelligence seamlessly into your private suite.

A high-resolution 12.3-inch touchscreen, responsive interfaces operated with the touch control panels on the steering wheel or the LINGUATRONIC voice control system using "Hey Mercedes".

The V-Class also comes equipped with a driver camera that monitors alertness through gaze and eye movement, issuing warnings if needed, while facial recognition automatically loads the driver's personalised settings.

A connoisseur's canvas

Open-pore wood-look trim flows across the cabin like hand-selected panels in a private suite, blending natural warmth with elegant art.

Every surface, designed to be savored.

The mark of distinction

Illuminated lettering traces
the way into your cabin,
a luminous welcome that turns
each step into a moment of ceremony.

A step into starlight

At the open side door,
precision LEDs projects
the three-pointed star at
your feet, an emblem
that marks the threshold
to your private suite.

A subtle note of exclusivity,
inviting you into a space
made for repose.

More room to unwind

The Extra-Long Wheelbase variant features a 3,430 mm wheelbase, providing significantly increased legroom and cabin space.

Precision in every spoke

45.7-cm (18-inch) light-alloy wheels in a 10-spoke design.

Close sesame

A curtain of metal draws aside to reveal your suite.

At the touch of a button, the doors glide open electrically, every motion choreographed to embrace you in a space of serene luxury.

The intelligent sensors ensure that elegance and safety move together at every moment.

Convenience Closing prepares your private suite before you even step inside.

The ventilation system, and seat ventilation where fitted, activate automatically at a gentle level, ensuring the cabin is cooled and composed for your arrival.

For short stays

The split-open tailgate introduces a refined gesture of access, with the rear window opening independently, allowing storage for smaller and sweeter belongings.

Or long journeys

And when space calls, the third-row seats fold and can be easily removed.

This is a versatility reflected in the refined chrome highlight that traces the lower edge, turning function into a subtle mark of distinction.

Yours, from the outside in

An entrance befitting what lies within, the AVANTGARDE Exterior with AMG Line balances elegance with strength; its sculpted form, chrome highlights and confident stance sets the tone before you enter.

From adaptive MULTIBEAM LED headlamps to darkened tail lights and chrome accents, every detail signals exclusivity, welcoming you in.

AIRMATIC suspension

Air suspension with adaptive damping system and automatic or individual regulation of the vehicle level.

The AIRMATIC air suspension offers an outstanding ride even over difficult terrain. The vehicle level varies in line with the speed.

Driving assistance package plus

Active Brake Assist, Active Distance Assist DISTRONIC, Active Lane Keeping Assist, and Parking Package with 360° camera can support you in the right situation, warn you if there is risk of collision and intervene if necessary.

By intelligently aiding the driver, they help avoid accidents or significantly reduce their severity - preserving calm, control, and confidence within your private suite.

Airbags and active safety

The Mercedes-Benz V-Class comes equipped with 7 airbags as standard in addition to various active safety features which preempt and avoid a collision in the first place.
